

HOWARD CONN, M.D., INC.

Laser Cosmetic & Ocular Plastic Surgery

Spring 2010

ACCORDING TO THE
NEW YORK TIMES:
"Spending Less On
Cosmetic Surgery"

Instead of costly facelift surgery people these days are opting for multiple smaller procedures that cost less and give them a more natural, subtle improvement.

Ten years ago the main option for looking younger was an expensive facelift that all too often produced a pulled and somewhat unnatural appearance.

All that has changed with the many non-surgical and quick recovery options that are available. People like the more subtle techniques produced by lasers, dermal fillers, and muscle relaxers. These procedures are not only more flattering for the consumer's pocketbook, but also produce the more natural results they desire.

Just imagine ... in less than an hour you too can look rested, radiant and years younger!

At your complimentary consultation Dr. Conn will discuss the many options available for you and design your individualized treatment plan.

Multiple Smaller Procedures Are The Natural Trend

Dr. Conn has been at the forefront of this movement offering his patients small procedures that deliver big results.

Laser cosmetic lower lid eyelid rejuvenation

Procedure time 30 minutes, recovery next day with some residual swelling.

Laser skin tightening and wrinkle remover and dermal fillers

Procedure time 30 minutes, recovery 3 to 5 days.

New Dual laser to remove sun damage and tighten skin

Procedure time 15 minutes, recovery next day.

Dermal filler to tear trough to remove dark circles and tired look

Procedure time 15 minutes, immediate recovery.

Men and Women enjoy the renewed sense of self that comes with knowing they are looking their best!

Tired Of Looking Tired?

Look rested and years younger without a facelift and with virtually no pain! Thanks to Dr. Conn's expertise with lasers you can have this simple procedure on Friday and return to your normal routine on Monday.

Four lid laser cosmetic eyelid surgery with skin rejuvenation to tighten the skin around the eyes.

Lower lid laser eyelid surgery

This patient had 2 procedures to produce her natural looking result:

- Laser eyelid surgery.
- Strategically placed dermal fillers to lift the face and fill in crevices.

Want Radiant, Younger Looking Skin?

Dr. Conn uses three different Fraxel lasers. At your appointment, Dr. Conn will take into consideration your desires, time available for recovery and your budget in making his recommendation.

Fraxel Re:pair™

- Transforms dull lifeless, aged and damaged skin to radiant, clear, youthful skin.
- Removes 10 to 15 years from your appearance with one procedure. It's especially beneficial for deep wrinkles, loose skin and sun induced red and brown pigment.

“Our patients are intelligent, busy people who want quick, predictable results that will make them look rested, natural and years younger”

- Howard Conn, M.D.

Keeping The Competitive Edge

More than ever, people feel as though they wear part of their resume on their face. You have the brains and experience, but do you look too old and tired to deliver the results?

Look rested and years younger!

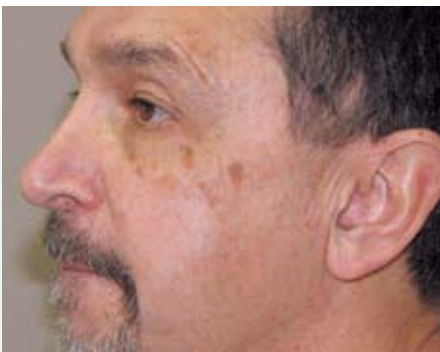

Upper lid laser cosmetic eyelid surgery and laser skin rejuvenation around the eyes.

Lower lid laser eyelid surgery and laser skin rejuvenation around the eyes.

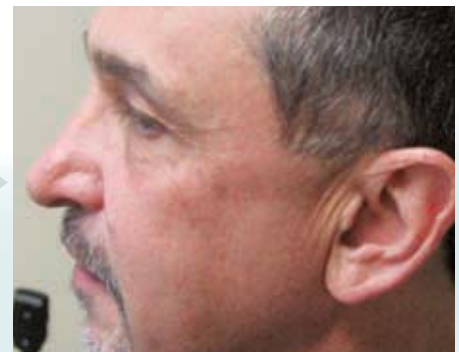

Repair of hereditary droopy lid. Just 24 hours later see the difference.

Fraxel Re:store™ for men

- Tightens skin.
- Improves overall skin tone.
- Dramatically decreases brown age spots and sun damage.

Our Gift To You!

Many of you know Dr. Conn's assistant, Michelle. But did you know that Michelle is also a CHANEL trained make-up artist?

During the week of May 10th to May 15th, Michelle will be offering you a COMPLEMENTARY mini cleansing facial and spring pallet makeover.

Enjoy this gift and thank you for being our valued patient.

Call the office now (949) 727-0102 and make your appointment with Michelle. Reserve your time now as appointments are filling fast.

Congratulations to Dr. Conn's youngest child, Lisa Conn

Lisa is graduating from NYU this year *summa cum laude*. She has spent the last year working for the Legal Aid Society and having some New York fun. (No, this is not a wax statue it is the real Mr. New York). Lisa enjoys constitutional laws and plans to go to law school. She wants to be a judge.

Lisa has recently been named a **New York University Scholar** and is receiving the *Deans Award for American Studies*.

Dr. Howard Conn

Join the

MAINTENANCE Club

Ever notice the older you get, the more time and resources you have to spend on maintenance with hair, nails, working out, dental hygiene and skin rejuvenation?

Many of our patients like to come in for touch-up maintenance after they have gone through their original skin rejuvenation to continue to keep the progressive sun damage at bay.

WE INVITE YOU TO JOIN THE LASER MAINTENANCE CLUB.

We have designed special programs to maintain your new look!

Call our office for more details!
